Artificial Intelligence & Scams

Artificial intelligence (AI) is the technology that gives a computer the ability to think and learn on its own. It’s the simulation of human intelligence into machines, to do things normally done by humans. Using AI, computers can learn to see, understand, and translate spoken and written language.

AI technology provides many benefits to society. It is used to develop tools and methods to protect computerized systems and any personal information they hold.

Even though AI provides many benefits, it can also be used for malicious purposes.

AI technology allows scammers to easily create and personalize scams to make them more convincing. It uses personal information pulled from social media profiles and other online sources to tailor the scam to you.

AI can also be used to create deepfake audio and video clips to trick us. Using the technology, scammers collect audio data to clone a person’s voice. They may clone a child’s voice, a grandchild, or other family member.

The imposter will call, possibly spoofing the number to show the loved one’s number on your caller ID. They may claim to be in serious trouble and beg the relative to send money. Hearing a loved one’s voice and seeing their phone number on your caller ID is convincing and motivates us to respond to the request.

Protect yourself from a potential voice cloning scam:

- Don’t trust the voice. Be skeptical when asked for money in any form.
- Don’t rely on caller ID. It can also be faked.
- Hang up. Call the person using a number you know to be theirs.

Learn to recognize the ingredients of a scam.

- Pressure to act immediately.
- Use of scare tactics or enticing offers.
- An offer too good to be true.
- Demand for money, typically in an unusual form, either by wire transfer, gift card, pay app, or crypto.
- Requests for sensitive or personal information.

FUN FACTS ABOUT OCTOBER

- **8th month of the year.** you'd know that the calendar once looked a lot different! In the original 10-month calendar, October was month 8. Hence the name, *octo*, Latin for 8.
- **An importer Hindu festival.** Diwali, also known as the festival of lights. It symbolizes the victory of light over darkness and good over evil.
- **A month of bounty.** October is known as the best harvesting month for many crops including apples, carrots, corn, grapes, onions, potatoes and squash. Oh, and obviously pumpkins too!
- **The leaves are stunning.** The changing of the leaves is one of the most spectacular events of October. P people travel to the northeast where large swathes of maples, birches and poplars turn from green to dazzling reds, yellows and oranges.
- **A unique birthstone.** Opal is the only birthstone that isn't crystalized and can take on many shapes and colors. It was also a favorite of Cleopatra.
- **Take me out to the ballgame:** The World Series of Major League Baseball always starts in October. The first World Series took place on October 1st, 1903.
- **What day is it?** our list of fun facts, October 2nd is International Coffee Day. October 8th is National Kick Butt Day. October 15th is National Grouch Day. And October 29th is National Cat Day.
- **The spookiest month:** Many people celebrate the creepy, frightening, dark, and macabre throughout all of October. It is seen as a lead up to the granddaddy of spooky days, All Hallows Eve aka Halloween on October 31st.
- **History:** Many important dates in American history have occurred in October. First there was Christopher Columbus landing in the Americas on October 12, 1492. Also, the Great Chicago Fire occurred on October 8th, 1871 destroying the city and leaving 100,000 people homeless. And in October 1886 France gifted the US the iconic Statue of Liberty.
